

Ultracare Marine Cleaner RF

Controlled-Foaming Detergent for Marine Resin Flooring

WHERE TO USE

Ultracare® Marine Cleaner RF is ideal for cleaning heavily soiled resin surfaces. It is specifically designed for cleaning MAPEI's **Mapedeck®** System resin floors.

TECHNICAL CHARACTERISTICS

Ultracare Marine Cleaner RF is a controlled-foaming, water-soluble detergent specially designed for cleaning and degreasing resin floors. This high-performance detergent removes all types of dirt, as well as stubborn ingrained stains, and does not contain EDTA.

USE OF PRODUCT

Ultracare Marine Cleaner RF effectively cleans surfaces using hand tools or machine. Use **Ultracare Marine Cleaner RF** at a concentration of 1% to 3% (100 to 300 g of product per every 10 L of water) for daily cleaning operations.

Ultracare Marine Cleaner RF can be used at higher concentrations, if needed, to remove heavy soiling from surfaces. In particularly dirty areas, apply **Ultracare Marine Cleaner RF** and allow it to dwell on the surface for a few seconds before scrubbing by hand or with a machine. MAPEI recommends following all cleaning processes with a surface rinse using plenty of water.

WARNING

High concentrations of **Ultracare Marine Cleaner RF** can corrode aluminum and aluminum alloy surfaces.

PACKAGING

1.32 U.S. gals. (5 L) plastic jerrycan

STORAGE

Store **Ultracare Marine Cleaner RF** in its original packaging in a dry place at a temperature of 32°F to 95°F (0°C to 35°C). The shelf life is 30 months in the original, sealed packaging. Protect from freezing weather.

SAFETY INSTRUCTIONS FOR PREPARATION AND APPLICATION

Instructions for the safe use of our products can be found on the latest version of the Safety Data Sheet, available from our website www.mapei.com.

PRODUCT FOR PROFESSIONAL USE.

Technical Data

Product Information	
Consistency	Liquid
Color	Transparent, fluorescent yellow
Density	1.29 g/cm ³ ± 0.02
Odor	Non-perfumed
Chemical characteristics	Contains less than 5% anionic and non-ionic surfactants and phosphonates
pH	13 to 14
Solubility in water	Fully soluble at all concentration levels
EC N.648/2004 regulations	Complies

ADDITIONAL INFORMATION

Refer to the Safety Data Sheet (SDS) for specific data related to health and safety as well as product handling.
